

National, State, and Local Government Project

To wrap up our study of the three levels and three branches of government, you will complete a project to show your understanding.

You can create any product of your choice, but you must meet all of these requirements:

- project should clearly show the 3 **branches** of government and each branch should be labeled
- project should clearly show the 3 **levels** of government) and each level should be labeled
- you should clearly explain the required information on each branch in complete sentences (check the table for what is required)
- make sure your product is accurate, clean, and neat

The easiest way to do this is on a poster board divided into a 3x3 grid. But I encourage you to do something else if you'd like!
